## Strategic Wildfire Prevention Initiative

# Summary of 2013-2016 Program Material Updates

---

*This document provides a summary of changes made to the program materials for the 2013 - 2016 Strategic Wildfire Prevention Initiative. For complete program requirements please refer to the Program & Application Guides.*

### **General**

- All email correspondence, including applications and final reports, should be sent to [swpi@ubcm.ca](mailto:swpi@ubcm.ca).
- All final reports from local governments and First Nations should be submitted directly to UBCM.
- UBCM will perform a preliminary review of all final reports.

### **Community Wildfire Protection Plans & CWPP Updates**

Mapping & Spatial Data Requirements:

- WILDLAND\_URBAN\_INTERFACE layer no longer required (2014-2016 only)
- PHOTO\_LOCATION layer no longer required
- FUEL\_TYPE layer - DEGREE\_OF\_CURING attribute no longer required (2014-2016 only)
- STRUCTURES layer - STRUCTURE\_TYPE attribute no longer required
- THREAT\_PLOT layer – the following attributes are no longer required:
  - PHOTO\_REFERENCE
  - FIRE\_BEHAVIOUR\_THREAT\_SCORE
  - WUI\_THREAT\_SCORE
  - WUI\_THREAT\_CLASS
- Domain / Attribute Value Reference Table updates based on the changes above
- References/requirements specific to the above mentioned layers/attributes have been removed.
- Sample maps on the FTP site have not been updated.

## **Fuel Management Prescriptions**

### Mapping & Spatial Data Requirements:

- PRESC\_STAND\_TREATMENT layer no longer required (2013 only)
- PRESC\_DEBRIS\_MGMT layer no longer required (2013 only)
- THREAT\_PLOT layer – the following attributes are no longer required:
  - PHOTO\_REFERENCE
  - FIRE\_BEHAVIOUR\_THREAT\_SCORE
  - WUI\_THREAT\_SCORE
  - WUI\_THREAT\_CLASS
- PRESC\_TREATMENT\_UNIT layer – the following attributes are no longer required:
  - PROJECTED\_FUEL\_TYPE
  - PROJ\_FIRE\_BEHAVIOUR\_THREAT\_CLS
  - PROJECTED\_STEMS\_PER\_HA
- Domain / Attribute Value Reference Table updates based on the changes above
- References/requirements specific to the above mentioned layers/attributes have been removed.
- Sample maps on the FTP site have not been updated.

## **Operational Fuel Treatments**

### Mapping & Spatial Data Requirements:

- PHOTO\_LOCATION layer no longer required
- THREAT\_PLOT layer – the following attributes are no longer required:
  - PHOTO\_REFERENCE
  - FIRE\_BEHAVIOUR\_THREAT\_SCORE
  - WUI\_THREAT\_SCORE
  - WUI\_THREAT\_CLASS
- OP\_TREATMENT\_UNIT layer (Operational projects) / DEMO\_TREATMENT\_UNIT layer (demonstration projects) – the following attributes are no longer required:
  - PREV\_FUEL\_TYPE
  - PREV\_FIRE\_BEHAVIOUR\_THREAT\_CLS
  - PREV\_STEMS\_PER\_HA
- Domain / Attribute Value Reference Table updates based on the changes above
- References/requirements specific to the above mentioned layers/attributes have been removed.
- Sample maps on the FTP site have not been updated.
