ABOUT THE ANNUAL EXPENDITURE REPORT

Eligible Recipients who received funding through the Community Works Fund, the Greater Vancouver Regional Fund and/or have approved projects through a pooled fund program stream (SPF/IF/RSP/GSPF) are required to complete an Annual Expenditure Report describing Canada Community-Building Fund expenditures between January 1st and December 31st of the previous year. Reporting is available through the [Program Information Management System](#) (PIMS). Access to PIMS can be granted through your Client Access Administrator, or by reaching out to CCBF staff by emailing PIMS@ubcm.ca.

This guide will illustrate all practices required to successfully complete your Annual Expenditure Report in PIMS, including:

- How to access PIMS
- Accessing your Annual Expenditure Report
- Adding existing projects to your Annual Expenditure Report
- Adding and editing new projects in your AER
- Adding a new project from the home page
- How to update an existing project
- Making adjustments to prior year
- Program reporting tab
- Preparing the financial officer signature form
- Related forms
- Submitting your AER

HOW TO ACCESS PIMS?

PIMS is a web based application where users can find all information related to the Canada Community-Building Fund. Users will access PIMS through their internet browser by navigating to pims.ubcm.ca. Each local government has been assigned a Client Access Administrator, who is responsible for adding, deactivating and managing staff access to PIMS.

Below is an overview of all user roles associated in PIMS:

- Client Access Administrator
- Administrative Officer
- Financial Officer
- Staff
- Consultant

User Role	Description
Client Access Administrator	The Client Access Administrator is responsible for adding and de-activating staff as required in PIMS. This user role is added in conjunction with another user role listed in this table.
Administrative Officer	This user role is assigned to the local governments Chief Administrative Officer or equivalent.
Financial Officer	This user role is assigned to the local governments Chief Financial Officer or equivalent.
Staff	This user role is assigned to any other staff within the local government.
Consultant	This user role is to be assigned to any consultants a Recipient may hire to help complete reports or applications in PIMS.

ACCESSING YOUR ANNUAL EXPENDITURE REPORT

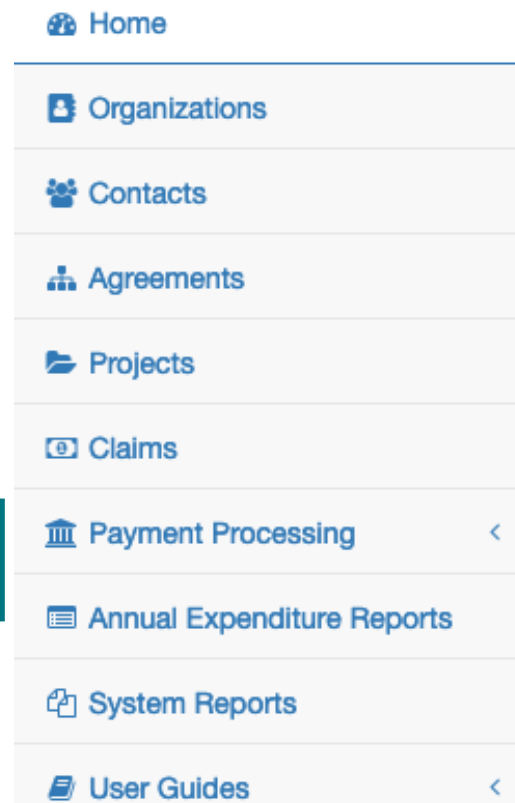

Once you have logged into PIMS, you will need to access your AER to start your submission. Below are instructions on how to access your 2022 Annual Expenditure Report in PIMS.

1. Once you are logged into PIMS, click 'Annual Expenditure Reports' in the left-hand side navigation panel.
2. Once in the 'Manage Annual Expenditure Reports' module, you will see the top panel "Draft Submission in Progress". This is where you access your current AER. The reporting year Jan 1 - Dec 31, 2022 will be assigned an AER ID, which is a hyperlink. Click on the AER ID to access your report.

TIP:

Please note it is critical that throughout the process of completing your Annual Expenditure Report you save your work. As PIMS is a web based application, work is not automatically saved, and must be manually saved by the user. You will always find the save button at the bottom of your screen while completing your report.

3. Once you click on the AER ID, PIMS will bring you to your DRAFT AER. The first step is to fill out your contact details as shown in the photo on the right.

- Contact Name: First & last name of the person CCBF staff can contact for any questions in relation to your AER.
- Phone Number: The best phone number to reach the AER contact at for any further questions.
- Email Address: The best e-mail address to reach the AER contact at for any further questions.

4. The navigation bar shown to the right is where you will navigate through all required sections in order to complete the AER. You are required to complete each tab prior to submission of your AER.

5. Once you have entered the contact details, you will move on to the next stage of adding your CWF projects to your report.

It is important to note that there is a **new process** this year where UBCM will add any Strategic Priorities Fund projects that had claims paid between January 1, 2022 to December 31, 2022 to your Annual Expenditure Report. This change in process is to make reporting more streamlined for the Recipient.

ADDING EXISTING PROJECTS TO YOUR ANNUAL EXPENDITURE REPORT

Local governments can choose to add CWF projects to the system throughout the year when they are approved at a local level, or annually at the time of reporting. When adding projects it is important that the Federal Reporting Guidelines are followed, in order for UBCM to accurately report on program spending. Continuing from the previous steps on completing your AER, below you will find step by step directions on how to add your CWF project(s) to your report.

1. If you are reporting 2022 expenditures for a project that already exists in PIMS, navigate to the Project Reporting tab and click the 'Add Project to Report' button.
2. The 'Add Project(s) to Annual Expenditure Report' table will appear. Using the first column with check boxes, select which project(s) you would like to appear in your Annual Expenditure Report.
3. Click the Update button.

TIP:

Once you have added your project(s) to your AER, it is a good time to save your work. Scroll to the bottom of the report page and click the 'Save' button.

Above is an example of what a project record looks like after it has been added to the Annual Expenditure Report. The following sections will outline what is read-only, and what can be edited as well as how to edit project information.

ADDING AND EDITING NEW PROJECTS IN YOUR AER

When a new project has been approved at the local level, it will need to be added to PIMS. Below are steps on how to do this either through your Annual Expenditure Report, or through the Home Page in PIMS.

1. If you are in the Annual Expenditure Report, and want to add a new project that has not yet been created in PIMS, you will click the Create New Project button.

2. This will take you to the CWF project screen, where under the 'Project Details' heading, the following details need to be entered:
 - Project Title
 - Project Description
 - Project Category
 - Project Start Date
 - Estimated Project Completion Date
 - Percentage of Project Complete
 - Actual Project Completion Date (if applicable)
 - Total CWF/GVRF Funding Allocated
 - Total Project Cost
3. Once complete, scroll to the bottom of the Project page and click the 'Save' button. A message will appear advising you have saved your progress.

4. Once all details are entered, click the 'Status Change' button at the bottom of the screen.
5. The 'Status Update' table will appear. Change the project status from 'Draft' to 'Recipient Approved' and then click the update button.
6. To navigate back to the Annual Expenditure Report, at the top of your page you will find the Annual Expenditure Report breadcrumb you can click on, as shown below.

The 'Status Update' dialog box contains a 'Status' section with a dropdown menu for 'Status Name' showing 'Draft', 'Planned', and 'Recipient Approved' (highlighted with a red circle). The 'Status Date' is set to 'Apr 19, 2021' and the 'Status Note' field is empty. Below this is a 'Status History' section. At the bottom right, there are 'Update' and 'Close' buttons, with the 'Update' button highlighted by a red circle.

The 'Project [ID: 7866]' page features a breadcrumb 'Annual Expenditure Report' at the top left, circled in red. Below the header is a 'Project Summary' table with the following data:

Project #	Project Status	Project Start Date
21-0002-CWF	Recipient Approved	Feb 01, 2021
Project Title	Project Status Date	Estimated Project Completion Date
First Ave. Water and Sewer Main Upgrade and Expansion	Mar 01, 2021	Nov 30, 2023
Program	Percentage of Project Complete	
GTF/CWF	20%	

7. Once back in your Annual Expenditure Report, you will repeat the steps found on Page 8 to add existing projects to your Annual Expenditure Report.

TIP:

Breadcrumbs such as this example will be found throughout your time in PIMS. It is a tool made to easily navigate back and forth between modules while you're working in the system. Always look to the top of your screen to see if you have a breadcrumb available for your ease of access.

8. Once the project(s) have been added to your report, you will be required to complete all information as at December 31, 2022. The following fields are mandatory when reporting on a project in your AER:

- Percentage Complete as of Dec 31, 2022
- Project Start Date as of Dec 31, 2022
- Project Completion Date as of Dec 31, 2022
- Total CWF/GVRF spent in reporting year

Once complete, scroll to the bottom of the report and click the 'Save' button. A message will appear advising you have saved your progress.

You'll note that the information listed in Box B of the 'Project Details' table are generated from each individual project's page in PIMS. Please ensure the details in Box B are consistent with what was entered in Box A. If updates are required, see the following steps to update the Project Page.

ADDING A NEW PROJECT FROM THE HOME PAGE

As previously mentioned, there are a few ways to add a new project in PIMS. The previous pages walked you through adding a new project while in your Annual Expenditure Report. Below are instructions on how to add a project to PIMS from the home page.

1. Login to PIMS
2. Navigate halfway down the main page to 'Start New Submission'
3. You'll find a table labelled 'Applications for Funding' where you can initiate a new submission

Start New Submission

Applications For Funding				
Program	Submission	Submission Available Start Date	Submission Available End Date	
CCBF/CWF	CWF Project	Feb 09, 2017		Initiate Submission

4. Once you click 'Initiate Submission' the system will create a project record for you to complete. Please follow the steps on Page 10 of this document to complete your new project.

TIP:

If you don't see a button you expect, such as Initiate Submission, using your mouse or track pad, scroll to the right...it might be hiding in your view!

HOW DO I UPDATE AN EXISTING PROJECT?

1. In the 'Project Details' table, click the blue hyperlinked Project # to go to the Project page.
2. On the project page, scroll to the bottom and click the 'Edit' button.
3. Once you have clicked the edit button you'll notice fields are editable. Make the necessary updates to your CWF or GVRF project, and scroll to the bottom and ensure you click save.
4. To navigate back to your AER, you will scroll to the top of your window and click the hyperlinked Annual Expenditure Report breadcrumb in the top left-hand corner.

RELATED FORMS

The 2022 AER will include a Communications and Compliance Survey. The survey will record local government communications activity in 2022 and confirm the level of uncommitted program funds for each local government. Copies of the 2021 survey are available upon request.

As a reminder, each local government that receives CCBF funding has signed an agreement that includes a Communications Protocol. The aim of the protocol is so BC residents are made aware of the contributions provided by the Government of Canada through the program. There are several ways in which this can be achieved: Installation of temporary construction signage; formal communications (such as news releases and media events); and social media.

Guidelines for signage installation along with templates are available on Infrastructure Canada's website. Any project utilizing over \$100,000 from the CCBF should incorporate project signage. UBCM gathers data on signage installation in our annual reporting process for the federal government.

Communities receiving annual CCBF allocations greater than \$400,000 and those receiving grants through the Strategic Priorities Fund should undertake at least one formal communication highlighting the use of funds in each year. Local governments are required to provide notice to Canada, BC and UBCM twenty-one days in advance of any formal communications. This requirement can be fulfilled by contacting UBCM.

Please tag UBCM ([@CCBFinBC](#)) and Infrastructure Canada ([@Infrastructure Canada - English](#)) on any posts to your community's Facebook page that recognize projects funded through the CCBF.

The 2022 Communications and Compliance Survey can be found on the related forms tab of your 2022 AER.

The screenshot shows a web interface with a navigation bar at the top containing five tabs: 'Project Reporting', 'Program Reporting', 'Related Forms' (which is active), 'Attachments', and 'Workflow'. Below the tabs is a blue header bar that says 'Start a new Form'. Underneath this is a table with the following columns: 'Form Name', 'Req?', 'Form Type', 'Available From', and 'Available To'. Each column has a dropdown arrow icon. The table contains one row with the following data: '2022 - CCBF Communications and Compliance Survey', 'Yes', 'Client', 'Apr 01, 2023', and 'Oct 30, 2023'. At the bottom of the table, there is a pagination bar showing '1' in a blue box, followed by navigation arrows and the text '15 items per page'. On the far right of the pagination bar, it says '1 - 1 of 1 items' with a refresh icon.
