

Housing Accelerator Fund

The Housing Accelerator Fund (HAF)

Encourages local governments to implement initiatives that will speed up housing development and increase supply.

The HAF is incentivizing local governments to do what they can to get more housing built.

\$4 Billion in contribution resulting in at least 100,000 net new permitted housing units over the course of the 4-year program.

Objectives and supported priorities

Implementation of initiatives to get **more homes built faster**

Speed up approvals and building processes

Development of **complete** communities

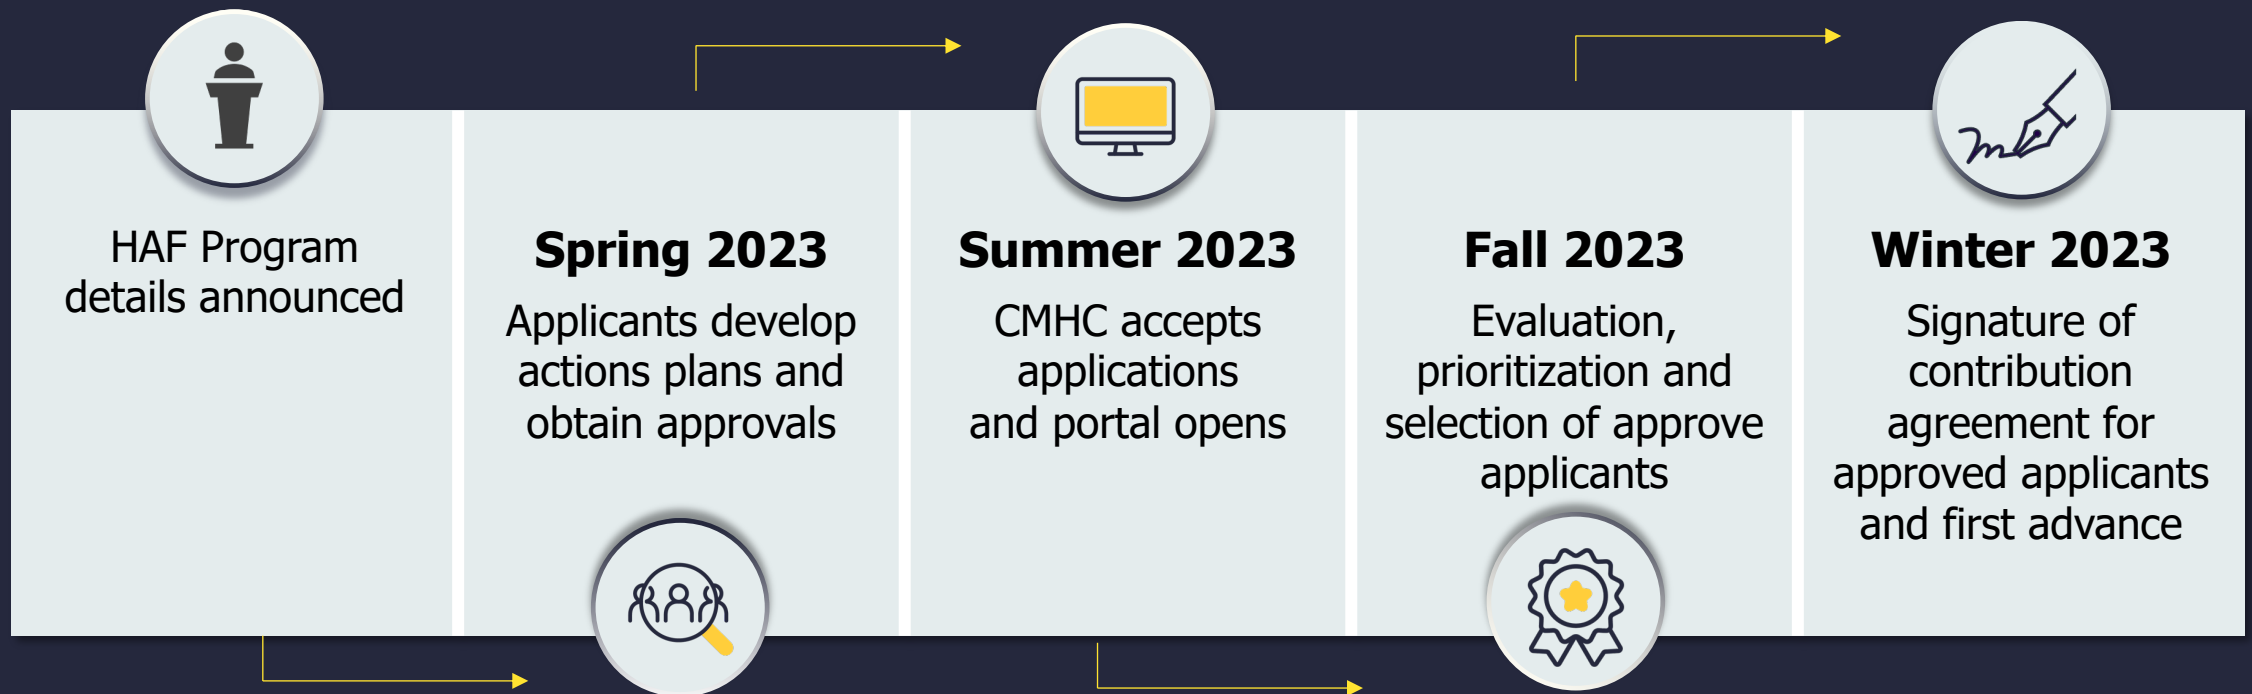

Development of **affordable, inclusive, equitable** and **diverse** communities

Development of **low-carbon** and **climate-resilient** communities.

HAF Key Dates

HAF Summary

\$4 Billion in contribution for local governments resulting in at least **100,000 net new permitted** housing units over the course of the 4-year program.

Support the **development of complete**, low-carbon, and climate-resilient communities across Canada, that are affordable, inclusive, equitable, and diverse across Canada.

Lasting systemic changes reducing **barriers** to housing supply and development approvals

To **speed up housing development** and **increase supply**.
