Therefore be it resolved that UBCM urge the BC Government to ~~work with medical researchers, experts, local service providers, other key stakeholders and people who use drugs to determine a comprehensive, integrated, economically and geographically accessible, and evidence-based province-wide plan to better tackle BC's toxic drug health emergency, including:~~

- Increasing safety by:

- o Rapidly delivering access province-wide to resources and services that will improve users’ and public safety, including drug testing, supervised consumption spaces and overdose prevention sites;
- o Quickly amending the *Tobacco and Vapour Products Control Act* to enable supervised consumption and other harm reduction facilities to allow inhalation or smoking of drugs where operations can otherwise be demonstrated as WorkSafe compliant; and
- o Preparing for a review of the current 3-year (January 31, 2023 to January 31, 2026) Provincial decriminalization pilot program and the 4-year (2020-2024) Federal Safer Supply Pilot Project to determine how drug policies and programs can be refined to better support people who use drugs in accessing throughout BC a safer and tested drug supply therefore reducing their exposure to the often fatal dangers of the illicit market.
- Increasing economically accessible treatment by supporting the BC Nurses’ Union 2023 convention resolution to “develop a system of mental and addiction treatment and recovery services that are regulated, evidence-based, economically and geographically accessible, and are available when people are looking for it”; and
- Increasing prevention by investing in mental health treatment and life-enhancing youth, family and community well-being programs, including early childhood detection, intervention and ongoing supports for learning differences.
