Addressing Cost-Drivers

Attainable Housing

RECOMMENDATION

5

The Province commit to working with UBCM on a comprehensive review of funding mechanisms for financing growth-related infrastructure services including Development Cost Charges and Amenity Agreements, to:

- *Better capture growth related capital costs that are increasingly strained as a result of pressure for local governments to incentivize attainable housing;*
- *Provide local governments with flexibility to better reflect community circumstances and community objectives; and*
- *Create a consistent approach to land value capture and amenity charges that reduces the uncertainty associated with negotiated agreements.*

RECOMMENDATION

6

The Province commit to work with UBCM to identify the appropriate revenue source(s) that may both increase funding available for attainable housing and incentivize the use of residential property for housing. Potential sources include, but are not limited to:

- *New taxation powers, such as vacancy taxation, to be granted to local governments for use at their discretion;*
- *Returning funds from existing revenue sources such as the speculation tax, to the jurisdiction in which they are collected, for provision of attainable housing;*
- *Modifications to the property transfer tax to make it more progressive and/or disincentivize rapid resale ('flipping'); and*
- *Short-term rental taxation.*
