

UBCM Governance Review 2026

Engagement Opportunities

Engagement with membership over the course of the Governance Review is critical to ensuring that all perspectives, concerns, criteria and other factors are brought forward in the consideration of Executive body composition, and in discussions on the arguments for and against a change in name.

The consultant hired to undertake the review will be connecting with membership through the Membership Survey, specific focus groups, presentations and discussions at Area Association conventions and webinar reviews of the project report.

The full set of opportunities for membership as a whole, and for specific constituencies, is outlined in the accompanying table. Access to the Membership Survey will be advertised through The Compass along with dates for Area Association sessions and Webinars.
